PROFESSIONAL SUMMARY

Final-year BCom (Honours) in Information Systems and Technology student with a BSc in Computer Science and IT from the University of KwaZulu-Natal. Passionate software developer with full-stack experience and proven track record in building scalable applications and automation solutions. Strong background in data analytics, ETL processes, and cloud-based solutions. Eager to apply technical skills and innovative problem-solving in dynamic technology environment.

WORK EXPERIENCE

Tax Data Automation Intern

Naspers, Johannesburg

June 2025 – April 2026

- Automated key tax processes and reporting using Google Apps Script, KNIME, and advanced SQL queries on Databricks, significantly reducing manual workload and improving accuracy.
- Developed and maintained data extraction, transformation, and loading (ETL) solutions to support tax compliance and decision-making.
- Collaborated with tax professionals to analyse requirements, identify automation opportunities, and implement technology-driven tax solutions.

TECHNICAL SKILLS

Languages: C#, Python, JavaScript, SQL

Frameworks: ASP.NET Core, Entity Framework Core, React.js, Node.js, Express.js

Databases: SQL Server, MySQL, MongoDB, Databricks

Tools & Others: Power BI, Git/GitHub, RESTful APIs, Google Apps Script, KNIME, Agile Methodology, SOLID Principles

EDUCATION

BCom (Honours) in Information Systems and Technology

University of KwaZulu-Natal

In progress

BSc in Computer Science and Information Technology

University of KwaZulu-Natal

2019 – 2023

Mashingizela High School

2014 – 2018

CERTIFICATES

- Python for Data Science, AI & Development – IBM
- Google Cybersecurity Professional Certificate
- Artificial Intelligence Essentials V2
- WeThinkCode GenAI Course for Software Engineers
- Introduction to Software Engineering

PROJECTS

- Movie Database Web Application – React.js, Node.js, Express.js, MongoDB
 - Built a responsive full-stack application with modern architecture and external API integration.
 - [Live-Demo-Link](#) | [GitHub Repository](#)
- Sales Tax Dashboard – Python, Power BI
 - Created an interactive dashboard for analysing sales tax performance with automated data updates and DAX calculations.
- Cylinder Head Doctor API – C#, ASP.NET Core, SQL Server
 - Built a full-stack Web API for managing customer data, services, and payments with strong data integrity.
- SA-ID Testing WebApp – JavaScript, Node.js, MongoDB
 - Developed a responsive validation tool achieving 98% accuracy.
 - [Live-Demo-Link](#) | [GitHub Repository](#)

SOFT SKILLS

- Problem Solving Mindset
- Adaptability & Growth mindset
- Attention to detail
- Strong collaboration and communication skills
